Section 1

CARICOM’s Trade with Canada
CARICOM’s TRADE WITH CANADA – 1996 - 2001

CARICOM’s imports from Canada decreased from EC$0.80 billion in 1996 (eleven Member States reporting) to EC$0.77 billion in 2001 (ten Member States reporting) at an average annual negative growth rate of 0.8% over the period. CARICOM’s exports to Canada advanced from EC$0.64 billion in 1996 to EC$0.81 billion in 2001 (ten Member States reporting in both cases) at an average annual growth rate of 4.8% over the period (Table 2.1.1).

Canada as a source of CARICOM’s imports accounted for 3.7% of CARICOM’s total imports in 1996 declining to 3.0% in 2001, with its highest percentage contribution of 3.8% in 1998. As a source of CARICOM’s extra-regional imports, Canada’s percentage contribution declined from 4.1% in 1996 to 3.3% in 2001, with the highest percentage contribution of 4.3% being registered in 1999 (Table 2.1.3). As a destination for CARICOM’s exports, Canada accounted for 5.1% of CARICOM’s total exports to all destinations in 1996 declining to 4.8% in 2001. With respect to CARICOM’s extra-regional exports, Canada’s percentage contribution moved from 6.3% in 1996 to 6.0% in 2001 (Table 2.1.5).

Major Contributors

The MDCs dominated CARICOM’s imports from Canada and accounted for an average percentage contribution of 82.5% over the period. Imports of the MDCs moved from EC$0.59 billion in 1996 (four of the five Member States reporting) to EC$0.62 billion (three of the five Member States reporting) which accounted for 74.1% in 1996 and 81.2% in 2001 of CARICOM’s imports from Canada. This resulted in the percentage contribution of the LDCs to CARICOM’s imports from Canada declining from 25.9% in 1996 to 18.8% in 2001 (Table 2.1.3).

Table 2.1.5 revealed that over the period 1996-2001, the MDCs totally dominated CARICOM’s exports to Canada with an average percentage contribution of 98.3%. Exports of the MDCs to Canada expanded from EC$0.63 billion in 1996 to EC$0.80 billion in 2001, which accounted for 97.9% and
99.3% of CARICOM’s exports to Canada in those respective years. As a result the percentage contribution of the LDCs to CARICOM’s exports to Canada was less than 3% over the period.

In relation to performance of individual Member States, Jamaica and Trinidad and Tobago were CARICOM’s two leading Member States to access the Canadian market. Jamaica topped the Region as the leading importer from Canada in 1996, 1997, 2000 and 2001 with recorded percentage contributions of 29.8%, 35.0%, 32.8% and 34.4%. Trinidad and Tobago captured the top spot for the remainder of the period and accounted for 36.7% and 39.4% of the Region’s imports from Canada in 1998 and 1999 respectively. Together these two Member States accounted for an average percentage contribution of 64.5% of CARICOM’s imports from Canada throughout the period. The OECS accounted for an average percentage contribution 15.2% of CARICOM’s imports from Canada over the period.

With regards to exports, Jamaica was CARICOM’s largest exporter to Canada with its percentage contributions declining from 68.6% in 1996 to 63.7% in 2001. Over the period, Jamaica recorded an average percentage contribution of 55.3% of CARICOM’s exports to Canada. Guyana was CARICOM’s second highest exporter to Canada with increasing percentage contribution from 30.6% in 1997 to 32.3% in 2000. Belize was the top LDCs Member State to export to Canada with an average percentage contribution of 1.2% of the Region’s exports to Canada over the period.

With respect to Member States’ Trade Balance with Canada, Jamaica registered surpluses throughout the period moving from EC$204 million in 1996 to EC$252 million in 2001. Trinidad and Tobago recorded trade deficit of EC$60 million in 1996 and surplus of EC$18.7 million in 2001. The OECS group registered trade deficits with Canada throughout the period moving from EC$193 million in 1996 to EC$123 million in 2001.

Major Commodities

CARICOM’s major commodities imported from Canada were Food, Manufactured Goods and Machinery and Transport Equipment while CARICOM’s major commodities exported to Canada were Crude Material, inedible, except Fuel (Tables 2.1.6 and 2.1.8).
Imports
With regards to CARICOM’s imports from Canada, *Food* reflected a percentage contribution of 26.8% in 1996 and advanced to 30.9% and 33.2% in 1997 and 1998 respectively. For 1999 its percentage contribution declined to 29.2%, remained unchanged in 2000 and expanded to 31.5% in 2001. *Jamaica* and *Trinidad and Tobago* were CARICOM’s highest importers of this commodity from Canada with average percentage contributions of 38.3% and 28.6% over the period. For 2001, the top *Food items* imported from Canada by *Jamaica* and *Trinidad and Tobago* were *sardines* and *potatoes* respectively. The other major *Food items* imported from Canada by both Member States were *herrings, alewives, saithe, pollock, haddock and hake*.

The percentage contribution of *Manufactured Goods* to CARICOM’s imports from Canada declined from 29.8% in 1996 to 14.6% in 1999. However in 2000 and 2001, the percentage contribution of these commodities to CARICOM’s imports from Canada strengthened to 17.8% and 22.2%. *Trinidad and Tobago* and *Jamaica* were CARICOM’s top importers of this commodity with average percentage contributions of 37.6% and 30.6% respectively over the period. For 2001, the top *Manufactured Goods* imported by both Member States were *newsprints, in rolls or sheets*. For *Trinidad and Tobago* the next commodities to follow were *copper bars, rods and profiles of refined copper* while for *Jamaica* imports of *cans (other than collapsible tubular containers)* were the commodities that followed.

The percentage contribution of *Machinery and Transport Equipment* to CARICOM’s imports from Canada declined over the period moving from 23.1% in 1996 to 21.3% in 2001. *Jamaica and Trinidad and Tobago* dominated CARICOM’s imports of this commodity with average percentage contributions of 30.2% and 37.1% over the period. In 2001, *Jamaica’s* major commodity imported from Canada within this category were *other transformers (etc. of a power handling capacity of more than 16 KVA but less than or equal to 500 KVA)*. While for *Trinidad and Tobago* in this same year, the highest imported commodities were *parts of electrical apparatus for line telephony or line telegraphy*.

Collectively these three top major commodities accounted for an average percentage contribution of 76.1% of CARICOM’s imports from Canada over the period.
Exports

On the exports side, the performance of Crude Material, inedible, (except Fuel), fluctuated over the period. These commodities accounted for 62.7% of CARICOM’s exports to Canada in 1996. For 1997 – 2000, its percentage contribution to CARICOM’s exports to Canada declined continuously to 53.2%, 46.3%, 42.0% and 41.3% respectively. However in 2001 its position strengthened to 58.2%. Jamaica was CARICOM’s top exporter of this commodity with average percentage contribution of 97.7% over the period. For 2001, Jamaica’s top commodity exported to Canada within this category was aluminium oxide (alumina) other than artificial corundum.

Commodities and transactions n.e.s. was CARICOM’s second highest exported commodities to Canada during 1997 – 2000 with percentage contributions of 30.0%, 34.0%, 33.7% and 29.8% respectively. Guyana was CARICOM’s top Member State responsible for exports of this commodity to Canada with an average percentage contribution of 99.7% over the period, 1997-2000. For 2000, Guyana’s top commodity with this category exported to Canada was non-monetary gold, unwrought or in semi-manufactured forms. The unavailability of Guyana’s data in 1996 and 2001 has resulted in percentage contribution of 0.1% in both years.

Top items traded with Canada.

In 2001, CARICOM’s top 20 imports from Canada accounted for 62.7% of CARICOM’s total imports from Canada. These commodities also accounted for more than 50% of CARICOM’s imports from Canada throughout the period. For 2001, CARICOM’s top commodities imported from Canada were:

- Paper and paperboard;
- Telecommunications equipment, n.e.s and parts, n.e.s;
- Medicaments (including veterinary medicaments);
- Fish, died, salted or in brine; smoked fish (whether or not cooked before or during the smoking process);
- Crustaceans, mollusks and other aquatic invertebrates, prepared or preserved, n.e.s.

Collectively these commodities accounted for 30.0% of CARICOM’s total imports from Canada in 2001 (Table 2.1.9).
Table 2.1.10 showed that in 2001, CARICOM’s top 14 domestic exports to Canada accounted for 95.4% of its total domestic exports to Canada. For 2001, CARICOM’s top domestic exports were:

- *Other aluminium oxide (alumina)* and
- *Ferrous products obtained by direct reduction of iron ore*

Collectively these two items contributed to 78.5% of CARICOM’s total domestic exports to Canada. *Other aluminium oxide (alumina)* maintained its position as CARICOM’s highest exported commodity throughout the period. For 1997-2000, CARICOM’s second highest exported commodity was *Non-monetary gold, unwrought or in semi-manufactured forms.*
