The Economics and Statistics Office of the Cayman Islands is seeking professionals to fill the following posts:

**Deputy Director / Chief Statistician**
SALARY CI$ 77,712 - $104,532 PER ANNUM

The post-holder will:-
Manage the Statistics Unit; implement plans to move the Cayman Islands’ statistical program to international standards; plan and oversee the implementation of population and housing census, household and business surveys, consumer price surveys, system of national accounts and balance of payments compilation and dissemination, and population projections. Assist all Government Departments, on request, with statistical analysis and survey design and methodology. Assume responsibilities of the Director in her absence.

Qualifications:
Bachelors Degree in Statistics, with at least 10 years of experience in a statistical agency, including experience in census planning and implementation and survey methodology, of which at least 5 years are in a supervisory capacity (head of section or unit).
Or a Masters Degree in Statistics and at least 8 years of experience in a statistical agency, including experience in census planning and implementation and survey methodology of which at least 3 years are in a supervisory capacity (head of section or unit).

**Senior Statistician**
SALARY CI$61,224- $82,356 PER ANNUM

The post-holder will:-
Plan and manage the compilation and dissemination of balance of payments statistics, including the preparation and processing of surveys and secondary data collection; and develop and implement data collection systems for merchandise exports, trade in services, capital and financial accounts.

Qualifications:
Bachelors Degree in Statistics or Economics or Mathematics plus specialist training in Statistics and at least 7 years work experience in a statistical agency or a central bank, preferably in national accounts or balance of payments compilation of which at least 3 years are in a supervisory capacity (head of section or unit).
Or a Master’s Degree in Statistics and a minimum of 5 years work experience in a statistical agency, preferably in national accounts or balance of payments compilation, at least 2 years of which are in supervisory experience.

**Statistician I**
SALARY CI$47,520 - $63,912 PER ANNUM

The post-holder will:-
Manage the compilation of production accounts of the system of national accounts, coordinate the design and implementation of surveys and secondary data collection for production accounts, and assist the Senior Statistician in charge of the system of national accounts.

Qualifications:
Bachelors degree in Statistics or Economics and at least 3 years of experience in a statistical office or a central bank on system of national accounts compilation.
Or a Masters degree in Statistics and least 2 years of experience in statistical office in system of national accounts compilation.

**Statistical Officer I**
SALARY CI$34,524- $46,416 PER ANNUM

The post-holder will:-
Manage a business registry and assist in the implementation of surveys and secondary data collection for a system of national accounts under the guidance of the Senior Statistician in charge of the system of national accounts.

Qualifications:
Minimum of four O’Levels including English and Mathematics and two years work experience in data collection or database management or database infrastructure maintenance.

Applicants in the above posts must have significant work experience in statistical software packages.
