PREFACE

This edition of **CARICOM's Intra-Regional Trade** covers data for the period 2008 to 2013. It presents summary as well as detailed trade information of individual Member State's trade with its Intra-Regional trading partners. Aggregated data showing the Region's Intra-Regional trade as a bloc are also presented.

The publication is divided into fourteen chapters. Chapter 1 presents aggregated data on CARICOM's Intra-Regional trade as a bloc while chapters 2-14 presents data on individual Member State's Intra-Regional trade. These chapters include summary totals for imports and exports disaggregated by the corresponding intra-regional trading partners; as well as data disaggregated by the Standard International Trade Classification, Revision 4 (SITC, Rev4). It also includes the major products traded intra-regionally by each country and the Region as a bloc.

The data presented in this report were extracted from those submitted to the CARICOM Secretariat by the Central Statistical Offices of the Member States. It does not contain data for the Haiti and The Bahamas.
