## **Glossary of Acronyms and Abbreviations**

CARICOM	Caribbean Community
c.i.f.	cost, insurance, freight
CPI	Consumer Price Index
CSME	CARICOM Single Market and Economy
ECCB	Eastern Caribbean Central Bank
FISIM	Financial Intermediation Services Indirectly Measured
f.o.b.	free on board
GDP	Gross Domestic Product
GNI	Gross National Income
ISIC	International Standard Industrial Classification
IMF	International Monetary Fund
LDCs	Less Developed Countries
MDCs	More Developed Countries
OECS	Organisation of Eastern Caribbean States
SNA	System of National Accounts
VAT	Value Added Tax

### ***Country Abbreviations***

AG	Antigua and Barbuda
BB	Barbados
BS	The Bahamas
BZ	Belize
DM	Dominica
GD	Grenada
GY	Guyana
JM	Jamaica
MS	Montserrat
KN	St. Kitts and Nevis
LC	Saint Lucia
SR	Suriname
VC	St. Vincent and the Grenadines
TT	Trinidad and Tobago

## General Notes

1. The GDP used in the calculation of ratios refer to the Current Market Prices of the respective Member States.
2. Calculations at the levels of CARICOM, CSME, MDCs, LDCs and OECS, exclude those countries for which data may not be available.
3. The currency used is the Eastern Caribbean (EC) Dollar except for the Gross International Reserves and Gross Official Reserves tables which are presented in United States (US) Dollars. In most cases the data were originally extracted in the National currency and were converted to the EC dollar for comparison purposes. (US\$1.00 = EC\$2.70)

## Symbols

- |     |   |
|-----|---|
| ... | means Data not available                                      |
| ..  | means A change in the series rendered early data incomparable |
| -   | means Nil   |

## Preface

*The first edition of this report started out simply as an attempt to make available for both internal and external users, key economic indicators of CARICOM Member States in a single publication. As the report developed and the problems of compiling a consistent and reliable data set across all Member States were exposed, the publication grew into an attempt to bring to the fore the issues of harmonisation of statistics in the Region.*

*Harmonisation of statistics demands, or necessitates, that we have common data with harmonised or equivalent definitions that can be reliably compared across all Member States. With the creation of the CARICOM Single Market and Economy (CSME), the achievement of harmonisation of statistics is a crucial concern at the Regional and National levels. The monitoring of the performance of the CSME is only possible if there is a core set of statistics that are comparable and timely. Hence, the analysis in this report takes the form of a presentation of the conceptual framework of the data to assess the current status of the economic statistical system and to identify the gaps and deficiencies that can militate against the achievement of this goal of harmonisation of statistics in the CARICOM Region. In addition, a study of some of the trends highlighted may lead to the question of data reliability and accuracy, which may stimulate the need to re-examine the data at the source.*

*It is obvious that a lot more work is required, but this publication makes an initial effort to embark on the task of going deeper into the methodologies in use in the Region, and producing a core set of socio-economic, environment and eventually a set of sustainable development statistics indicators.*

*The Statistics Programme welcomes any suggestions as to how the issues highlighted in the **Notes about the Data** can lead to an improvement of the quality, comparability and availability in general of these statistics in the Region.*

## Acknowledgements

*Data were collected from several sources during the preparation of this report.*

*The CARICOM Secretariat therefore, wishes to acknowledge and thank those Organisations and persons for their valuable contribution in supplying the data either by means of printed or electronic publications, web sites or through direct contact. Among these are the National Statistical Offices of Member States; the Central Banks of the Bahamas, Barbados, Belize, Guyana, Jamaica, Suriname and Trinidad and Tobago; the Eastern Caribbean Central Bank for data on the Organisation of Eastern Caribbean States (OECS) and the relevant Ministries of Finance for data on External Debt. The Secretariat looks forward to the continued support of these Organisations in making future editions of this report possible.*

*Sincere thanks and appreciation are also extended to the Staff of the Statistics Programme for compiling and preparing the report.*

Selected Indicators for CARICOM Member States: 2010	<i>xiii</i>
---	-------------

## ***Section 1 GDP, Prices and Employment***

Real GDP .....	3
Growth of Real GDP.....	3
Real GDP per capita.....	4
Growth of Real GDP per capita.....	4
Real GDP (at base year of Member State).....	5
Real GDP per Capita (at base year of Member State) .....	5
GNI at Current Market Prices .....	6
GNI per capita.....	6
Percentage change in GDP Deflator .....	7
Consumer Price Index (Average annual % growth) .....	7
GDP at Current Market Prices .....	8
Unemployment Rate .....	8
Graphs .....	9
Notes about the data.....	13

## ***Section 2 Structure of Gross Domestic Product***

Agriculture as a percentage of Country's GDP .....	17
Mining and Quarrying as a percentage of Country's GDP.....	17
Manufacturing as a percentage of Country's GDP .....	18
Services as a percentage of Country's GDP .....	18
Contribution of Agriculture to CARICOM's Agriculture GDP .....	19
Contribution of Mining & Quarrying to CARICOM's Mining and Quarrying GDP .....	19
Contribution of Manufacturing to CARICOM's Manufacturing GDP.....	20
Contribution of Services to CARICOM's Services GDP .....	20
Notes about the data.....	21

### ***Section 3 Investment and Savings***

Gross National Savings .....	25
Gross National Savings as a percentage of Country's GDP .....	25
Gross Capital formation .....	26
Gross Capital Formation as a percentage of Country's GDP .....	26
Notes about the data .....	27

### ***Section 4 Central Government Budgetary Operations***

Overall Fiscal deficit/surplus .....	31
Overall Fiscal deficit/surplus as a percentage of Country's GDP .....	31
Current Revenues .....	32
Current Revenues as a percentage of Country's GDP .....	32
Current Expenditure .....	33
Current Expenditure as a percentage of Country's GDP .....	33
Capital Expenditure .....	34
Capital Expenditure as a percentage of Country's GDP .....	34
Notes about the data .....	35

### ***Section 5 External Sector***

Exports of Goods and Services .....	39
Exports of Goods and Services as a percentage of Country's GDP .....	39
Imports of Goods and Services .....	40
Imports of Goods and Services as a percentage of Country's GDP .....	40
Net Exports of Goods and Services .....	41
Net Exports of Goods and Services as a percentage of Country's GDP .....	41
Exports of Goods .....	42
Exports of Goods as a percentage of Country's GDP .....	42
Imports of Goods .....	43
Imports of Goods as a percentage of Country's GDP .....	43
Merchandise Trade Balance .....	44
Merchandise Trade Balance as a percentage of Country's GDP .....	44
Net Services .....	45
Net Services as a percentage of Country's GDP .....	45
Net Foreign Direct Investment .....	46
Net Foreign Direct Investment as a percentage of Country's GDP .....	46
Current Account Balance .....	47
Current Account Balance as a percentage of Country's GDP .....	47
Capital Account Balance .....	48
Capital Account Balance as a percentage of Country's GDP .....	48
External Debt Outstanding .....	49
External Debt Outstanding as a percentage of Country's GDP .....	49

Debt Service Payments .....	50
Debt Service Ratio .....	50
Gross Reserves.....	51
Notes about the data.....	52

## ***Section 6 Financial Sector***

Net Foreign Assets .....	57
Net Foreign Assets as a percentage of Total Liabilities .....	57
Net Domestic Credit .....	58
Net Domestic Credit as a percentage of Total Liabilities .....	58
Domestic Credit to the Private Sector.....	59
Domestic Credit to the Private Sector as a percentage of Total Liabilities .....	59
Change in the Broad Money Supply (M2).....	60
Interest Rate Spread .....	60
Exchange Rates (National Currency per US Dollar) .....	61
Notes about the data.....	62

## ***Section 7 Appendix***

Detailed List of Sources.....	66
-------------------------------	----

## ***GRAPHS***

GDP of CARICOM Member States at Constant 2006 Prices: 2006 and 2010.....	3
Growth of Real GDP of CARICOM Member States: 2006 and 2010.....	3
Real GDP per capita of CARICOM Member States at Constant 2006 Prices: 2006 and 2010 .....	4
Growth of Real GDP per capita of CARICOM Member States at Constant 2006 Prices: 2006-2010 .....	4
GNI of CARICOM, MDCs and LDCs: 2006-2010 .....	6
GNI per capita of CARICOM Member States: 2006 and 2010.....	6
Percentage Change in GDP Deflators of CARICOM Member States: 2006 and 2010 .....	7
Annual Change in the CPI of CARICOM Member States: 2006 and 2010 .....	7
GDP of CARICOM Member States at Current Market Prices: 2006 and 2010 .....	8
Barbados' Growth of Real GDP and Unemployment Rate: 2006-2010.....	9
Belize's Growth of Real GDP and Unemployment Rate: 2006-2010 .....	9
Jamaica's Growth of Real GDP and Unemployment Rate: 2006-2010 .....	9
Saint Lucia's Growth of Real GDP and Unemployment Rate: 2006-2010 .....	9
Trinidad & Tobago's Growth of Real GDP and Unemployment Rate: 2006-2010 ....	9

The Bahamas' Growth of Real GDP and Unemployment Rate: 2006-2010 .....	9
Barbados' Unemployment Rate and Annual Change in the CPI: 2006-2010 .....	10
Belize's Unemployment Rate and Annual Change in the CPI: 2006-2010.....	10
Jamaica's Unemployment Rate and Annual Change in the CPI: 2006-2010 .....	10
Saint Lucia's Unemployment Rate and Annual Change in the CPI: 2006-2010.....	10
Trinidad and Tobago's Unemployment Rate and Annual Change in the CPI: 2006-2010 .....	10
The Bahamas' Unemployment Rate and Annual Change in the CPI: 2006-2010.....	10
Barbados' Annual Change in the CPI and Growth of Real GDP: 2006-2010.....	11
Belize's Annual Change in the CPI and Growth of Real GDP: 2006-2010 .....	11
The Bahamas' Annual Change in the CPI and Growth of Real GDP: 2006-2010.....	11
Jamaica's Annual Change in the CPI and Growth of Real GDP: 2006-2010 .....	11
Saint Lucia's Change in the CPI and Growth of Real GDP: 2006-2010.....	11
St. Vincent and the Grenadines Annual Change in the CPI and Growth of Real GDP: 2006-2010 .....	11
Suriname's Annual Change in the CPI and Growth of Real GDP: 2006-2010.....	11
Trinidad and Tobago's Annual Change in the CPI and Growth of Real GDP: 2006-2010 .....	11
Barbados' Annual Change in the CPI and GDP Deflator: 2006-2010 .....	12
Belize's Annual Change in the CPI and GDP Deflator: 2006-2010.....	12
Guyana's Annual Change in the CPI and GDP Deflator: 2006-2010 .....	12
Jamaica's Annual Change in the CPI and GDP Deflator: 2006-2010.....	12
Saint Lucia's Change in the CPI and GDP Deflator: 2006-2010 .....	12
St. Vincent and the Grenadines Annual Change in the CPI and GDP Deflator: 2006-2010.....	12
Suriname's Annual Change in the CPI and GDP Deflator: 2006-2010.....	12
Trinidad and Tobago's Annual Change in the CPI and GDP Deflator: 2006-2010.....	12
 CARICOM, MDCs, LDCs and Guyana's Contribution of Agriculture to their Respective GDP: 2006-2010.....	17
CARICOM, MDCs, LDCs, Guyana and Trinidad and Tobago's Contribution of Mining and Quarrying to their Respective GDP: 2006-2010 .....	17
CARICOM, MDCs, LDCs, Jamaica and Trinidad & Tobago's Contribution of Manufacturing to their Respective GDP: 2006-2010 .....	18
CARICOM, MDCs, LDCs and Guyana and Trinidad and Tobago's Contribution of Services to their Respective GDP: 2006-2010 .....	18
Member States Contribution to CARICOM's Total Agriculture GDP, 2006 .....	19
Member States Contribution to CARICOM's Total Agriculture GDP, 2010 .....	19
Member States Contribution to CARICOM's Total Mining & Quarrying GDP, 2006.....	19
Member States Contribution to CARICOM's Total Mining & Quarrying GDP, 2010.....	19
Member States Contribution to CARICOM's Total Manufacturing GDP, 2006.....	20

Member States Contribution to CARICOM's Total Manufacturing GDP, 2010 .....	20
Member States Contribution to CARICOM's Total Services GDP, 2006 .....	20
Member States Contribution to CARICOM's Total Services GDP, 2010 .....	20
Selected Member States Gross National Savings as a % GDP: 2006 and 2010.....	25
Gross Capital Formation as a % of Each Country's GDP: 2006 and 2010 .....	25
CARICOM, MDCs, LDCs and The Bahamas' Gross Capital Formation: 2006-2010 .....	26
LDCs – Gross National Savings and Gross Capital Formation: 2006-2010 .....	26
Selected MDCs Central Government Deficit/Surplus as % of Country's GDP: 2006-2010 .....	31
LDCs Central Government Deficit/Surplus as % of Country's GDP: 2006-2010 .....	31
Selected MDCs' Central Government Current Revenue as % of Country's GDP: 2006-2010 .....	32
LDCs' Central Government Current Revenue as % of Country's GDP: 2006-2010 ..	32
Selected MDCs' Central Government Current Expenditure as % of Country's GDP: 2006-2010 .....	33
LDCs' Central Government Current Expenditure as % of Country's GDP: 2006-2010 .....	33
Selected MDCs' Central Government Capital Expenditure as % of Country's GDP: 2006-2010 .....	34
LDCs' Central Government Capital Expenditure as % of Country's GDP: 2006-2010 .....	34
CARICOM's Exports of Goods and Services: 2006-2010 .....	39
Selected Members States Exports of Goods and Services as % of Country's GDP: 2006-2010 .....	39
CARICOM's Imports of Goods and Services: 2006-2010 .....	40
Selected Member States Imports of Goods and Services: 2006-2010 .....	40
Value of CARICOM's Imports, Exports and Balance of Trade of Goods and Services: 2006-2010 .....	41
CARICOM's Exports of Goods: 2006-2010 .....	42
Selected Members States' Exports of Goods as % of Country's GDP: 2006-2010 ....	42
CARICOM's Imports of Goods: 2006-2010 .....	43
Selected Members States' Imports of Goods as % of Country's GDP: 2006-2010 ....	43
Value of CARICOM's Merchandise Imports, Exports and Balance of Trade: 2006-2010.....	44
Net Services in CARICOM, MDCs, LDCs and The Bahamas: 2006-2010 .....	45
CARICOM – Net Services and Net Goods: 2006-2010 .....	45

CARICOM – Net Foreign Direct Investment and Gross Capital Formation: 2006-2010.....	46
CARICOM – Net Foreign Direct Investment and Capital Account Balance: 2006-2010 .....	46
Current Account Balance of CARICOM Member States: 2006 & 2010.....	47
Capital Account Balance of CARICOM Member States: 2006 & 2010 .....	47
CARICOM – Current Account and Capital account Balances: 2006-2010 .....	48
External Outstanding Debt of Selected CARICOM Countries as a percentage Of GDP: 2006-2010.....	49
Debt Service Ratio of Selected CARICOM Countries: 2006-2010.....	50
Gross International Reserves of Selected CARICOM Countries: 2006-2010.....	51
Gross Official Reserves of Selected CARICOM Countries: 2006-2010.....	51
MDCs and LDCs’ Shares of CARICOM’s Net Foreign Assets: 2006-2010.....	57
Net Foreign Assets as a % of Total Liabilities for CARICOM, MDCs and LDCs: 2006-2010.....	57
CARICOM, MDCs and LDCs Net Domestic Credit as a % of Grouping’s Total Liabilities: 2006-2010 .....	58
Selected Member States’ Net Domestic Credit as a % of Country’s Total Liabilities: 2006-2010 .....	58
CARICOM, MDCs and LDCs’ Domestic Credit to the Private Sector as a % Of Grouping’s Total Liabilities: 2006-2010 .....	59
Selected Member States’ Domestic Credit to the Private Sector as a % of Country’s Total liabilities: 2010 .....	59
Annual Changes in the Broad Money Supply (M2) of CARICOM, MDCs, LDCs and Guyana: 2006-2010.....	60
Interest Rate Spread of Selected CARICOM Member States: 2006-2010 .....	60
Exchange Rates of Selected CARICOM Member States: 2006-2010.....	61
Guyana – Imports and Exports of Goods and Services and Exchange Rate .....	61
Jamaica – Imports and Exports of Goods and Services and Exchange Rate .....	61
Suriname – Imports and Exports of Goods and Services and Exchange Rate.....	61
Trinidad and Tobago – Imports and Exports of Goods and Services and Exchange Rate .....	61

## Notes about the Data

### Gross Domestic Product

Gross Domestic Product (GDP) at constant prices have been prepared at various base years across the Region. GDP for Barbados is at constant 1974 prices; Belize and Trinidad and Tobago are at base year 2000; the Bahamas, Guyana and the Organisation of Eastern Caribbean States (OECS) member countries are at 2006 prices, while Jamaica and Suriname both use the year 2007. In the case of Guyana and Suriname, only data from 2006 onwards were reported at the new base years, data prior to 2006 would have been reported in the earlier base years, i.e. 1988 and 1990 respectively. Consequently, it was not possible to calculate the growth rates for 2006 at the group level except for the LDCs. The growth rates for 2006 for Guyana and Suriname are based on the 1988 and 1990 base years respectively.

In an effort to arrive at regionally comparable data, except for those countries with base year 2006, the constant price data for all the other countries have been arithmetically recalculated from their respective base years to 2006. This approach of deriving a common base year is a 'second best' method. Ideally, the best approach would be to use the detailed price and quantity measures at the individual country level to re-base the GDP at constant prices. At current prices, the data are all reported at Market Prices.

Even with the base years standardised, the data at constant prices are still not totally comparable. The Bahamas, Belize, Dominica, St. Kitts and Nevis, Suriname and Trinidad and Tobago have prepared their constant price GDP data at Market Prices; estimates for the other countries are at constant Basic Prices.

Conversion of the data at current prices to Eastern Caribbean (EC) dollars for the non-OECS Member States generates the problem of annual changes at constant prices being larger than the corresponding changes at current prices for specific Member States. In addition, relative changes in current prices between Member States are affected by the uncoordinated movements between changes in exchange rates and prices. There were also differences in changes in current prices in EC dollars as compared to similar changes in National currency of the affected country.

### Growth of Real GDP

Growth rates were calculated as the annual change in the real GDP in Constant 2006 prices. Since the shift in the base years was an arithmetic one, this would not have affected the growth rates when measured using the national base years. However, as noted above, in the case of Guyana and Suriname which adopted new base years during the period presented, the growth rate for 2006 for these two countries would not be strictly comparable with the rest of the series.

### Gross National Income

GNI data are presented in Market Prices for all Member States.

### GDP Deflators

Caution should be exercised when attempting to interpret the changes in the GDP deflators. Again, because some countries reported their constant GDP data in Basic Prices while others prepared theirs in Market Prices, the changes at the CARICOM and MDC group levels and individual country levels for some countries are therefore not entirely comparable.

### Consumer Price Index

The data presented on Consumer Prices represent the inflation rates of Member States as measured by the percentage changes in the annual average CPI of the respective Member State. In the case of Guyana, the data refer to the percentage change in the end of period CPI.

It should be noted that differences in the Consumer Price Indices exist across Member States relative to the base year of the indices, the composition of the basket of goods and the geographic area covered within countries. In some instances, the price data reflect only one part of the country, for example, urban areas, or just one city. For example, the CPI data for Suriname refer to Paramaribo and Wanica districts only while in the case of Guyana, the data refer to the capital city, Georgetown. However, due to the relatively small size/population of the CARICOM Member States, the annual changes are taken as being representative of the entire country. It may be the case, however, that in rural areas, prices are higher and these are not reflected in the index.

In some Member States, the CPI is known as the Index of Retail Prices or Retail Price Index.

### Unemployment Rates

Labour Force data are compiled from surveys conducted by the Member States. Unfortunately, not all countries conduct regular surveys. In fact, for some countries, the only data on employment that are available are derived from the decennial population censuses.

There are differences in the reference periods among Member States for the measurement of economic activity. The size of the Labour Force will also depend on the time of the year when

the survey was conducted, which implies that seasonality could affect the data. Some countries conduct quarterly surveys and in these cases the average of the four quarters was used for the annual figure.

In addition, some Member States use the population '15 years and over' to measure economic activity while others use the '14 years and over' age group.

### Concepts and Definitions

#### *Real Gross Domestic Product*

The Gross Domestic Product (GDP) is the total market value of goods and services produced in the country within a given period of time, after deduction of the cost of goods and services used up in the process of production, but before deduction of allowances for the consumption of fixed capital. It is the sum of the gross value added by all resident and non-resident producers in the economy plus any taxes minus subsidies not included in the value of production.

#### *Gross National Income Per Capita*

Gross Domestic Product plus net income from abroad equals the gross national income (GNI). GNI per capita is the total gross national income divided by the estimated total mid-year population.

#### *GDP Implicit Price Deflator*

The GDP implicit price deflator is the ratio of the current over the constant prices expressed as a percentage. This is one measure of general price changes in the economy, taking into account changes in the prices of all the final demand categories such as government consumption, capital

formation, international trade and private final consumption expenditure.

#### *Consumer Price Index*

The Consumer Price Index (CPI) is a measure designed to monitor the changes in the prices prevailing in an economy based on a fixed basket of goods and services usually from one month to the next and sometimes based on a defined group of households or persons. It is a reflection of changes in prices as they affect the average consumer in the acquisition of goods and services.

#### *Unemployment Rate*

The unemployment rate measures the total unemployed as a percentage of the total labour force during a defined reference period.

### Sources of Data

National Accounts data were compiled from data produced by the National Statistics Offices (NSOs) of the Member States and for the most part were submitted through the use of the United Nations National Accounts Questionnaires.

Data on Prices were extracted from web sites and publications/bulletins prepared by the NSOs and/or Central Banks of the respective Member States.

Labour Force data were submitted directly from the NSOs or were extracted from the NSOs' publications and web sites.

(See Appendix for a complete listing of sources.)

Member States Contribution to CARICOM's Total Manufacturing GDP, 2006

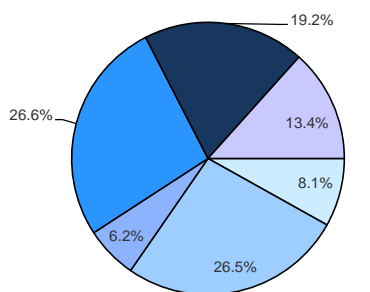

Member States Contribution to CARICOM's Total Services GDP, 2006

Member States Contribution to CARICOM's Total Manufacturing GDP, 2010

Member States Contribution to CARICOM's Total Services GDP, 2010

### Notes about the Data

The first four tables presented in this section give a broad indication of the structure of production of each CARICOM country by major industry groups and is measured as a percentage of the country's total GDP at basic prices inclusive of Financial Intermediation Services Indirectly Measured (FISIM).

Output by industrial origin is classified according to the International Standard Industrial Classification (ISIC). Member States have been using adaptations of either the ISIC revision 2 or 3. For the purpose of this report, **Agriculture** includes forestry, fishing and hunting while **Services** include construction, distribution, financial services, government services, hotels and restaurants, transportation and communication, personal and community services and other general services.

It should be noted that the Utilities sector - electricity, gas and water - is not accounted for in the data. As a result, the sum of the four major industrial sectors will not add to 100 per cent. In the case of Guyana, prior to 2006, "Electricity, gas and water" was included in the "Other services" category and therefore could not be disaggregated.

The remaining tables present data on the percentage contribution of the four broad industrial sectors of each Member State to CARICOM's overall GDP of the respective sector.

In both cases, these indicators would be affected by limitations concerning exchange rate conversions as mentioned in the previous Section of this report.

### Concepts and Definitions

#### *Value Added/Output*

Gross Output of industries is defined as the total value of all goods and services produced during the accounting period, adjusted for change in stock of work-in-progress and finished goods. Intermediate consumption consists of non-durable goods and services, which are used up in production. Value added at market prices is equal to the Gross Output at producers' prices less the value of intermediate consumption at purchasers' prices. The structure of production shows the breakdown of GDP through the contribution of agriculture, industry and services.

### Sources of Data

The structure of GDP was calculated from data compiled by the National Statistics Offices of the Member States and submitted to the Secretariat.

(See Appendix for a complete listing of sources.)

Gross Capital Formation: 2006-2010LDCs - Gross National Savings and Gross Capital  
Formation: 2006-2010

**Notes about the Data**

There are three approaches for compiling GDP estimates – production, expenditure and income. The data presented in the previous section of this report were compiled from data based on the production approach. In this section, the data were compiled from the Expenditure tables of Member States as well as the Consolidated Accounts of the countries.

**Sources of Data**

Extracted from the National Accounts data compiled by the National Statistics Offices of the Member States.

(See Appendix for a complete listing of sources.)

**Concepts and Definitions*****Gross National Savings***

Savings can be defined as disposable income which is not spent on consumption goods. That is, Disposable Income (National Income plus net transfers from the rest of the world) minus Final Consumption Expenditure (private plus government). The concept of Gross Domestic Savings differs from that of National Savings by not taking into consideration net factor payments from abroad (compensation to employees receivable from abroad and property income receivable from abroad) before subtracting final consumption expenditure.

***Gross Domestic Investment***

Gross Domestic Investment is gross fixed capital formation and increases in stocks. Gross fixed capital formation consists of outlays and additions to the fixed assets of the economy such as land improvement, plant, machinery and equipment and construction with respect to buildings, residential and commercial, roads, bridges, schools, private dwellings, etc.

MDCs' Central Government Capital Expenditure as % of Country's GDP: 2006-2010

Selected LDCs' Central Government Capital Expenditure as % of Country's GDP: 2006-2010

**Notes about the data**

Government Budgetary Operations are often based on a fiscal year, which may not always correspond with the calendar year. For all of the countries, except the Bahamas, Barbados, Belize, Jamaica and Trinidad and Tobago, the data extracted from the national sources were already in calendar years. In order to 'fit' the data for the other countries into calendar years, the data were placed in the year for which the larger part of the data applied. For example, if the fiscal year ran from April Year X to March Year Y, as in the case of Barbados, Belize and Jamaica, then the figures were placed in Year X. The Bahamas' fiscal year, however, runs from July to June. In this case, the data were placed in the year containing the July to December data.

**Concepts and Definitions*****Government Current Revenue***

Current revenue of government consists of tax revenue and non-tax revenue but excludes capital receipts. Tax revenue covers taxes on income, profits, social security contributions, taxes on property, domestic taxes on goods and services, etc. Non-tax revenue consists of property income, and operating surpluses of departmental enterprises, receipts from public enterprises, voluntary unrequited non-repayable receipts other than from government, administrative fees and charges, fines, etc.

***Government Current Expenditure***

Current expenditure of government comprises expenditure on goods and services, interest payments and subsidies and other current transfers. It excludes capital expenditure.

***Government Capital Expenditure***

Capital expenditure comprises expenditure for the acquisition of land, intangible assets, government stocks, and non-military and non-financial assets as well as capital grants and lending minus repayments.

***Overall Budget Deficit***

The overall government budget deficit is total revenue, current and capital and official grants less total expenditure and net lending (minus payments).

**Sources of Data**

The main sources for the Central Government data were the reports and web sites of the Central Banks of the Member States and the Eastern Caribbean Central Bank.

(See Appendix for a complete listing of sources.)

**Notes about the data*****Exports and Imports of Goods and Services***

Merchandise (goods) trade data were extracted from the Balance of Payments of each Member State. Accordingly, the data are valued as free on board (fob) as recommended by the international balance of payments framework. The exception is Trinidad and Tobago which used the cost, insurance and freight (cif) valuation for their imports data. The trade balance is simply the difference between the exports and imports.

It should be noted that data on merchandise trade are originally captured by the Customs Departments in each Member State and may differ from those in the Balance of Payments due to differences in valuation, classification, coverage and the timing of recording. As a result of these differences, the tables in this Section will deviate from those in the Selected Economic Indicators at the front of this report since the data that appear in the latter table were extracted from reports that were based on data from the Customs Departments.

***Net Foreign Direct Investment***

The data presented in this table refer to the net inflows of foreign investment. Generally, for most Member States outflows are relatively small when compared with inflows. However, The Bahamas, Barbados, Jamaica and Trinidad and Tobago reported significantly more outward investment than the other countries.

***Current and Capital Account Balances***

Data for the Current Account Balance and the Capital Account Balance tables were extracted from the Balance

of Payments of the respective Member States.

***External Debt and Debt Service Ratio***

The ratio of External Debt Outstanding to GDP and the Debt Service Ratio are presented as reported by the relevant debt authority in the respective Member State. These may differ from similar ratios calculated by the reader based on the data in this report which might have been revised.

***Gross International Reserves***

Since there is only one Monetary Authority for the member countries of the Organisation of Eastern Caribbean States (OECS), namely the Eastern Caribbean Central Bank (ECCB), the Gross International Reserves of the member governments of this institution are pooled into one reserve. Hence, it is not possible to calculate the gross reserves of any one country. Rather, the reserves are given for the entire Eastern Caribbean Currency Union (ECCU) area, which includes the seven CARICOM Member States and Anguilla. It should be noted, however, that the foreign assets of commercial banks in Anguilla have been excluded.

The Gross International Reserves of Barbados and Trinidad and Tobago include the foreign assets of the Central Government.

Gross Official Reserves have also been presented where these data were available. The official reserves do not include the foreign assets of the commercial banks. In the case of Suriname, the gross official reserves excludes government foreign currency holdings at the Central Bank of Suriname, government foreign currency holdings at the commercial banks, and Central Bank of

Suriname's foreign currency holdings at the commercial banks.

**Concepts and Definitions*****Exports and Imports of Goods and Services***

The value of exports and imports covers international movements of goods and non-factor services across customs borders. Exports are valued at free on board (fob) and imports at cost, insurance, freight (cif). Exports and imports of goods and services include all transactions involving a change of ownership of goods and services between residents of a country and the rest of the world, including merchandise goods and services.

***Trade Balance***

The trade balance is the difference between exports and imports of goods and non-factor services.

***Foreign Direct Investment***

Direct Investment refers to investment in which the investor has some kind of permanent interest in an enterprise located in a foreign country and exercises some control over its management. The non-resident investor holds or controls 10% or more of the voting stock.

***Current Account Balance***

The Current Account balance is the sum of net exports of goods and non-factor services (exports less imports), net factor service income, and net transfer payments. Official grants are included in this balance.

***Capital and Financial Account Balance***

The Capital and Financial Account balance comprises net capital transfers and acquisition/disposal of non-produced, non-financial assets, net direct investment, net portfolio investment, other net investment, including Public Sector Capital, and net reserve assets.

### ***External Debt Outstanding***

Total external debt outstanding includes all external obligation of both public and private debtors with maturity of more than one year. It comprises both public and publicly and privately guaranteed debt. This is therefore the total debt owed to non-residents of a country by a national government, public agency and other autonomous bodies as well as private guaranteed debt. This value divided by the GDP gives a picture of the total debt obligations relative to the productive capacity of a country. The higher this ratio is the greater the burden on future generations relative to the liquidation of this debt.

### ***Debt Service Payments***

Debt service payments are the sum of repayments of principal (amortisation) and interest actually made by a borrowing country in a specific year. The debt service ratio gives the total debt service payments to exports of goods and services, and reflects the percentage of foreign exchange earnings from exports that must be used to service the debt obligation each year.

### ***Gross International Reserves***

Gross international reserves is the sum of all the gross foreign assets of the Central Bank and commercial banks of a country. These include monetary gold holdings, IMF Reserve Tranche

Position, SDR's holdings and foreign currency balances.

### **Sources of Data**

The data for these tables were extracted from the Balance of Payments tables of Member States which were prepared by the Central Banks of the Member States and the ECCB in the case of the OECS countries. External Public Debt data were supplied by the Central Banks or Ministries of Finance of the Member States. (See Appendix for a complete listing of sources.)

**Notes about the data**

For comparison purposes, these indicators were calculated as a percentage of the total liabilities of the Central Bank and commercial banks of the respective countries. However, since the OECS countries do not have individual central banks – they are members of the ECCB – the percentages were calculated using the total liabilities figure of the entire ECCU Area less the liabilities of the commercial banks in Anguilla.

**Net Foreign Assets****Net Domestic Credit****Domestic Credit to Private Sector**

Data for The Bahamas were extracted from the Monetary Survey prepared by the Central Bank of The Bahamas. In addition to the Monetary Survey, the Central Bank also prepares a Financial Survey. The Financial Survey includes combined data from the Central Bank, commercial banks and other local financial institutions. The Monetary Survey, on the other hand, does not include data from the other local financial institutions.

**Money – M2**

The composition of this indicator varies among the Member States depending on whether or not foreign currency deposits by residents were included.

The OECS countries, The Bahamas, Belize and Trinidad and Tobago included foreign currency deposits by residents. Jamaica included foreign currency deposits but did not state whether this was by residents or non-residents. Guyana and Suriname did not state whether foreign currency deposits were included and Barbados excluded foreign currency deposits by non-residents from their Monetary Liabilities.

**Interest Rate Spread**

Guyana's interest rate spread was calculated as the difference between the weighted average lending rate of the Commercial Banks and the small savings rate. The small savings rate is an arithmetic average of savings deposit rates as reported by the Commercial Banks.

The interest rate spread for the other Member States were calculated from the weighted average interest rates for loans and deposits. Rates for Belize, Guyana, Jamaica and the OECS member countries were reported as at December.

In the case of Jamaica, Suriname and Trinidad and Tobago, the interest rate spread refers to local currency deposits and loans.

**Nominal Exchange Rate**

In 2004, Suriname changed its currency from the Suriname guilder to the Suriname dollar.

**Concepts and Definitions****Net Foreign Assets**

The net foreign assets position is the total gross assets less total gross liabilities

**Net Domestic Credit**

Net domestic credit is the sum of domestic credit to the central government, public sector and private sector added to time, savings and foreign currency deposits and other items (valuations).

**Domestic Credit to the Private Sector**

The domestic credit to the private sector represents commercial banks'

investment in time deposits, marketable stock, other private sector securities and total loans to the private sector.

**Money Supply – M2**

Money supply, M-2, is defined as the sum of currency in active circulation, commercial banks' reserves with the Central bank, demand deposits, savings deposits and time deposits.

**Interest Rate Spread**

The difference between the weighted average interest rates on loans and deposits is the interest rate spread.

**Nominal Exchange Rate**

The nominal exchange rate is the country's official exchange rate to some other country's currency, in this case, the US dollar. The exchange rate may be fixed and is therefore determined by the official authorities. The exchange rate can be flexible or floating, determined by the market forces or might be managed floating.

**Sources of Data**

These data were taken from the Central Bank reports of the respective Member State or from direct contact with the Central Bank.
