PREFACE

This is the fifth edition of **CARICOM's Trade: A Quick Reference to Some Summary Data** which covers data for the period 2005 to 2010. This publication presents some of the basic summary trade data to which users frequently refer and focuses primarily on CARICOM's trade with principal trading partners, as well as on Intra-CARICOM trade. Further this report could be used as a valuable source of trade information for manipulation and analysis.

The report is divided into twelve chapters. Chapter 1 presents data on CARICOM's Total Trade with all principal trading partners and in this regard attempts to give a summarized picture of CARICOM's overall merchandise trade. Chapters 2-12 of the report, presents data on CARICOM's Trade with principal trading partners and Intra-CARICOM Trade, each section being devoted to trade with a particular trading partner. CARICOM's trade with individual countries – the United States, The United Kingdom, Canada, Venezuela and Japan are also represented in this report.

The data presented in this report were extracted from those submitted to the CARICOM Secretariat by Member States Statistics Department. It should be noted that data were not always available for all Member States for specific years of the period 2005 to 2010. The incomplete nature of the data therefore poses limitations to analysis and interpretation. Efforts are being made by the CARICOM Secretariat to fill the data gaps.

ACKNOWLEDGEMENTS

The CARICOM Secretariat takes this opportunity to express its sincere thanks to the National Statistical Offices in Member States for supplying the Merchandise trade data used in the compilation of this report. We also wish to recognize the contributions of the various Customs Departments at the regional level.

The Secretariat wishes to thank the staff of its Regional Statistics Programme for their dedicated efforts in compiling the data and in preparing and disseminating this report.

EXPLANATORY NOTES

Description of Trading Areas

The following is a list showing the countries, which belong to the Trading Areas identified in this report. It should be noted that in this report the Caribbean Community (CARICOM) excludes data for The Bahamas and refers only to the Caribbean Common Market (now transformed to CARICOM Single Market and Economy – CSME).
