NET FLOWS OF FOREIGN DIRECT INVESTMENT FOR SELECTED COUNTRIES

DATA BY TYPE OF INVESTMENT.

Notes:

This section comprises data by type of flows. Common categories are equity, reinvested earnings and other capital.

Equity capital is described as the share capital portion of a company which is owned by normal shareholders or other classes of shareholders. It also refers to the capital that is debt free as it is not paid back to the investors in the business.

Reinvested earnings are that percentage of net earnings not paid out as dividends, but retained by the company to be reinvested in its core business or to pay debt.

Data represents inflows only since data on outflows were not submitted by countries.

FDI flows by type were provided by all countries except for the case of Barbados, where data were extracted from the Balance of Payments (BOP) for some years.

At the time of this publication's dissemination, data for this section were available up to 2012 for all countries with the exception of Barbados, Guyana and Trinidad and Tobago.

Data are reported as per source data.

Source:

Datasets were submitted by the Eastern Caribbean Central Bank (ECCB) for all OECS countries and the Central Bank for the other countries who provided data.

DATA BY INDUSTRY (SECTOR).

Notes:

This section comprises data by industry / sector.

Data represents inflows only since data on outflows were not submitted by countries.

FDI flows are not compiled by industry for the following countries: The Bahamas, Barbados and Suriname.

At the time of this publication's dissemination, data for this section were available up to 2012 for Belize, 2011 for all OECS Countries and Jamaica and 2010 for Guyana.

Data are reported as per source data.

Jamaica included data on "retained earnings" and "divestment" in their dataset

Source:

Datasets were submitted by the Eastern Caribbean Central Bank (ECCB) for all OECS countries and the Central Bank for the other countries who provided data.

Symbols:

... Data not available or not separately reported

- Magnitude equals zero

0.00 Magnitude less than US\$ 0.1 million.

Graphs:

In cases where data values for the main industry were relatively high and distorted the graphical display, additional graphs were done which excluded that particular industry.
